Target Fish Species

The Western Adirondacks is home to a wide variety of fish species, including:

- **Brook Trout:** Native to the cold, clear waters of the Adirondacks, brook trout are a prized catch for fly-fishers.

- **Rainbow Trout:** Introduced to the region, rainbow trout thrive in the cold, well-oxygenated waters of the lakes and rivers.
- **Lake Trout:** Found in the deep, cold waters of the larger lakes, lake trout are known for their impressive size and fighting spirit.
- **Landlocked Salmon:** A landlocked subspecies of the Atlantic salmon, landlocked salmon are found in many of the lakes in the Raquette Lake Region.
- **Smallmouth Bass:** Aggressive and fun to catch, smallmouth bass are abundant in the clear waters of the Oswegatchie River and other streams.
- **Largemouth Bass:** More common in the warmer waters of the lakes, largemouth bass are known for their powerful leaps and fights.
- **Northern Pike:** A predatory fish that can grow to impressive sizes, northern pike can be found in both lakes and rivers throughout the region.
- **Muskie:** The largest member of the pike family, muskie are a rare but highly sought-after catch in the Western Adirondacks.
